

For Immediate Release

Digital Watchdog® and dormakaba Integrate Keyscan Aurora and DW Spectrum® IPVMS for Access Control

DW Spectrum IPVMS v4.2

Cerritos, CA (April 12, 2021) – [Digital Watchdog® \(DW\)](#), the industry leader in digital recorders, surveillance cameras and related management software, and dormakaba, a market-leading provider of security and access control, announce the integration of Keyscan Aurora access control management software with the DW Spectrum IPVMS video management platform.

The latest Keyscan Aurora access control management software integrates with DW Spectrum via a licensed module that allows users to quickly access, view and manage video feeds using DW Spectrum's remote client and mobile apps.

"End user customers value the ability to combine their visual security and access control systems for increased effectiveness and efficient application," said Patrick Kelly, Director of

Digital Watchdog Press Release

IP Solutions, Digital Watchdog. “The elegance of this integration within DW Spectrum delivers dynamic visual verification of the Keyscan Aurora event notifications.”

“This integration really shows the versatility of Keyscan Aurora,” said Scott McNulty, Senior Product Manager, dormakaba. “Finding and managing your video feeds is now faster and easier for dormakaba’s Keyscan Aurora users.”

DW Spectrum IPVMS is accessed with the freely distributed DW Spectrum client software (Windows®/Linux®/Mac®) and the free DW Spectrum mobile app for iOS and Android devices. DW Cloud™, a web client service powered by AWS, is included to enable simple remote connectivity, streaming and management of one or an unlimited number of DW Spectrum IPVMS systems from all leading web browsers (Google® Chrome, Firefox®, Internet Explorer®, Safari® and Opera®). The VMS software is included with pre-configured DW Blackjack® NVR servers, MEGApix® CaaS™ all-in-one camera systems or it can be installed on third-party Windows or Ubuntu® Linux-based systems.

The Keyscan Aurora access control software is a high-performance software platform. It provides a single software solution for access control with no performance-limiting or system expansion governors. Keyscan Aurora is ideal for any access control applications regardless of size or complexity. Advanced features include managing, auditing and controlling door and elevator floor access as well as robust integration support for wireless locks, video management systems, intrusion alarm systems, Active Directory, and SMART elevator systems. Aurora can also support a hybrid hardwired and E-Plex wireless lock system with full control and audit capability, using the same credentials throughout your facility.

Digital Watchdog Press Release

DW and dormakaba will host a joint *works with DW Spectrum* webinar on May 4th at 11AM EST. [Click here](#) to register and reserve your spot.
