Servers Powered by DW Spectrum[®] IPVMS

Scalable, enterprise-level servers, powered
by DW Spectrum[®] IPVMS.

DW servers, powered by DW Spectrum® IPVMS.

What are Blackjack® servers?

DW's Blackjack® servers powered by DW Spectrum® are robust and user-friendly video management solutions, highly optimized to provide unlimited scalability, unmatched bandwidth savings and simplified system setup and management. The architecture is cross-platform supporting Windows®, Linux® and MAC® platforms for complete optimization to match any application.

DISCOVER	MANAGE	VIEW	INTEGRATE
 IP Cameras (ONVIF, Custom)	 IP Cameras / NVRs / DVRs	 Live Video (adaptive)	 HTTP Generic Events
 RTSP / HTTP Streams	 Advanced Routing	 Recorded Video (adaptive)	 HTTP Request-as-an-Action
 I/O Devices	 Storage (HDD/NAS/DAS)	 Server Health	 Server API
 Samba NAS	 Events and Rules Engine	 Log Files	 Storage SDK
 Virtual Camera	 Failover	 Audit Trail	 Video Source SDK
 H.265 on ONVIF Cameras	 Transcoding	 Storage Status	 Any Device or System
 Webcam Support	 Failover on Storage Failure	 Dual-Stream RTSP	 C2P Integration
	 System Update	 Layout-as-an-Action	 Metadata SDK
	 Archive Encryption	 Health Monitoring Dashboard	 Plugins
	 ZFT Support	 Intel Quick Sync Video	
		 SSL/TLS Connections	
		 Session-Based Authentication	

Rackmount Servers

High-capacity, industry compliant rackmount servers are ideal for any enterprise solution with multiple locations and monitoring capabilities.

Desktop Servers

Desktop solutions, enterprise capabilities.

SMB and single-location servers

Small yet powerful servers, with setup-and-go installations.

Key Technologies

DW Spectrum® IPVMS

Access and control from your phone or tablet: Our iPhone® and Android® app allow you to check in on your business from across town or across the country.

Dual Power Supply

Redundancy for reliability.

Hot Swappable Drives*

When a drive needs to be replaced, you can easily hot-swap it with a new one, while the system is still running. There is no need to power down and lose important minutes of data to maintain your system's drives healthy and operating.

Dual Network Cards

Optimize network bandwidth by utilizing dual network ports, to build a separate network for the surveillance system and keep that traffic off the main network, reserved for the NVR's communication.

DW servers, powered by DW Spectrum® IPVMS.

RAID Storage Mirroring*

Add extra security to your video surveillance system by protecting recorded data and overcoming data loss in the case of a hard drive failure.

USB Mouse and Keyboard Included

Get wide views and forensic details from one camera. Create dedicated zoomed screens in the monitoring software to get the details that matter most.

Railkit Included

All Blackjack® rackmount servers come with the rail kits included at no extra cost for easy out-of-the-box installation.

*Blackjack rack servers only.
See product specifications.

Next business day onsite hardware repair after remote diagnosis

If an issue occurs with your product that cannot be resolved by phone, DW will dispatch a certified technician to attempt repair of your machine at your place of business, usually the next business day.

Keep your drive after replacement to ensure data security

Our Keep Your Drive Warranty delivers users replacement hard drives, without the need to return the defective drives. Users can keep their drives and protect their data and their customer's privacy.

Designed and commissioned in the U.S.A

All DW recorders, workstations and NAS devices are designed, assembled and inspected in our California facility. Each product undergoes multiple levels of quality control to guarantee the highest quality and performance.

ONVIF® conformant

All Blackjack servers, NAS and workstations are ONVIF conformant, allowing users to bring our robust solutions to any surveillance system with other ONVIF components, creating a truly unique solution, to match your specific needs.

Operating Systems

Blackjack servers offer customization with Windows, Windows Server, Linux and Embedded Linux OS options. Remote monitoring solutions are also available for Android and iOS devices with complete cross-platform compatibility.

OS on dedicated SSD

DW's servers provide a dedicated SSD for the OS. This results in faster boot time, faster application loading times and improved system responsiveness.

Blackjack Monitoring Workstations

These high performance multi-monitor workstations are powered by DW Spectrum IPVMS and provide the ultimate solution to viewing and monitoring multiple Blackjack servers and multi-sensor Megapix® DWC-PZV2M72T and DWC-PZ21M69T cameras from a single location.

C2P Integration Workstation

The Blackjack® C2P™ Server is a dedicated station to facilitate the integration of DW Spectrum IPVMS with C2P (Convergence to Pixel®) products.

NDAA / TAA Compliant

DW® IP cameras, analog cameras, NVRs, DVRs, network devices and management software sold and distributed worldwide are designed and developed in U.S.A. and Korea. Manufactured in Korea.

Most DW® products qualify for GSA Schedule Contracts and other government opportunities because they are TAA / NDAA compliant.
