

Pivot Central Monitoring Software

Pivot™ CMS is a powerful and flexible remote monitoring software, available free with most DW® VMAX recorders. Pivot manages up to 128 sites and includes features such as Remote DVR configuration, Event Search, and Preview Search, which enables the user to control, configure, and monitor up to 128 channels.

TRY PIVOT™ CMS:

1. Download the software [Software tab below].
2. Add our [VMAX® A1™](#) demo server.
